My request for a single had already been approved
so why would the university suddenly make such a change?

Let's not get

2nd part, vol. 13

We haven't made a move yet
so it's unlikely that the Solar Eye is onto us.

That's...

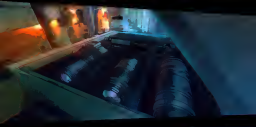

There could be several possibilities.

A glitch in the system.

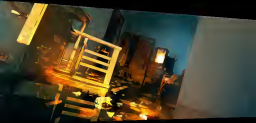

a change in dorm arrangements.

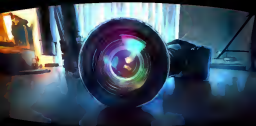

a chaotic factor.

or worst case scenario.

a government spy.

like you feared.

Either way,

he remains a liability.

The original plan
was for me to get a
one person dorm.

While this place remains
our base of operation.

If I have to deal with a roommate,

he will no doubt become suspicious
of my constant absence.

Don't worry.

Carry out Operation 2GIt as scheduled.

And I

will take care of this Vance Lee.

Alex,

How'd you get temp-IP banned from the internet?

B.

B-what?

Bro,

you wouldn't understand the purest form of love.
